

Location: Pipersville, PA

Position: *Small Animal Technician*

Job Description:

The overall husbandry including feeding, cleaning, and care of small lab animals, including but not limited to mice, rats, guinea pigs, and hamsters. This person will be responsible for administering treatments as needed. Daily maintenance of the animal areas of the facility.

Position Objective: *To provide proper animal husbandry and care for the small laboratory animals at Lampire with the goal of providing consistent, high quality products and services to our customers with complete, accurate documentation.*

Position Requirements: Qualification based upon education, resume and/or work experience

- 2 years minimum of relevant working experience.
- AALAS certification, and familiarity with USDA and AAALAC regulatory requirements a plus.
- Good oral and written communication skills (English) are required.
- Must be a team player, like working with animals, and demonstrate a commitment to the quality care of animals.
- Must have the ability to comprehend, carry out, and relay multiple verbal and written instructions including SOP's and study protocols.
- Must be able to maintain accurate and organized records.
- Must be able to work rotating holidays and weekends
- Experience with cGMP quality systems and manufacturing operations

Responsibilities Include (but are not limited to):

- Perform manual and semi-skilled work in connection with the feeding, cleaning, and care of small laboratory animals
- Maintain animal health and birthing records.
- Clean and maintain facilities inside and out on a daily basis.
- Clean and maintain housing units, feeders and watering devices.
- Observe and report signs of disease/illness and help treat minor cases of these.
- Other duties as assigned

Education: High school diploma or equivalent is required.
