Description - External

Could you be our next Vivarium Facility Technician with Main Line Health/LIMR?

Why work as a Vivarium Facility Technician with Main Line Health?

- **Make an Impact!** The Vivarium Facility Technician assists in the operational management and supervision of the Research Annex including the care of animals and maintenance of the facility.
- **Develop and Grow your Career!** Invest in furthering your education through seeking certifications or advanced degrees by taking advantage of our Tuition Reimbursement! This position is eligible for up to \$6,000 per year based upon your Full or Part Time status.
- **Join the Team!** Like our patients, the Main Line Health Family encompasses a wide range of backgrounds and abilities. Just as each of our patients requires a personalized care plan, each of our employees, physicians, and volunteers, bring distinctive talents to Main Line Health. Regardless of our unique design, we all share a purpose: providing superior service and care.
- **Position-Specific Benefits include:** You are eligible for up to 120 hours of paid time off per year based on your Full or Part Time status. This position is also eligible for the Main Line Health Pension Plan as well as the 403(b) Retirement Savings Plan! We also offer a number of employee discounts to various activities, services, and vendors... And employee parking is always free!

Position: Vivarium Facility Technician

Shift: Day Shift- 7:30am-4:30pm, rotating weekends and holidays

As outlined in our Respiratory Protection Program, this position requires the use of a respirator such as an N95. If offered the position, you will be asked to undergo Fit Testing for a respirator during the New Hire Physical with Employee Health where we would conduct a medical evaluation. You must be clean shaven (no facial hair) in order to pass the Fit Test to use a respirator.

Experience:

A minimum of three year's experience in performing required animal husbandry procedures or care.

Education:

Ability to read, write, speak, understand and communicate in English sufficiently to perform job duties required. Trained in animal husbandry procedures preferably including experience in maintaining rodents

Licensures/Certifications:

Certified Assistant Laboratory Animal Technician Preferred
